HYBRID CORN

Cost per acre is but little over ordinary corn. More than repays this in better quality, better yield.

May be planted earlier to be farther along before hot, dry weather.

Is healthy and vigorous, more resistant to insect damage.

Has stronger, deeper root-system, therefore can better withstand heat, drouth.

Stands up better, lodges less.

Is freer of barren stalks. Good ear on almost every stalk, hence better yield. Grows uniform, ripens evenly.

See prices on our HYBRID SEED CORN elsewhere on this list.
